ENTERPRISE PROGRAM BRIEF

Enterprise Developer AI Champion Program

Enterprise academy that prepares Developer AI Champions to coach teams, set standards, and sustain AI coding adoption across the organization.

VNode ITeS | AIC-300

DURATION	LEVEL	FORMAT
24 hours	Intermediate	Virtual, On-site, or Hybrid

AUDIENCE PROFILE

Built for these roles

Nominated Developer AI Champions Staff/principal engineers leading enablement DevEx leads running adoption programs

OVERVIEW

Executive overview

AIC-300 is a VNode enterprise academy path for nominated champions. Participants deepen multi-tool fluency, facilitation skills, governance literacy, and enablement planning so they can run office hours, pattern libraries, and cohort coaching. Completion yields a VNode completion record — not a vendor certificate.

READINESS

Prerequisites

- Strong hands-on AI coding experience
- Sponsorship to act as a team or org champion

PROGRAM OUTCOMES

Capabilities your teams will gain

- Run champion office hours and team coaching sessions
- Publish reusable AI coding patterns for the organization
- Partner with security on exceptions and controls
- Drive a multi-team adoption roadmap with measurable outcomes

ENTERPRISE CUSTOMIZATION

Enterprise customization

Tailor this program to your organization's priorities: Builds an internal bench of champions who scale AI coding adoption beyond a single pilot team.

- Map labs to your repositories, languages, and delivery toolchain
- Emphasize Copilot, Cursor, Claude Code, Codex, or a multi-tool mix
- Add security, governance, or champion-enablement modules for enterprise rollout

CURRICULUM

Curriculum roadmap

1 MODULE 1

Champion role and enterprise operating model

VNode-designed module covering champion role and enterprise operating model for enterprise AI coding adoption.

- VNode-designed module covering champion role
- enterprise operating model for enterprise AI coding adoption

2 MODULE 2

Deep-skill labs across coding agent workflows

VNode-designed module covering deep-skill labs across coding agent workflows for enterprise AI coding adoption.

- Coaching, change, and enablement design
- Governance partnership and escalation paths

3 MODULE 3

Enablement design and facilitation practice

VNode-designed module covering enablement design and facilitation practice for enterprise AI coding adoption.

- VNode-designed module covering enablement design
- facilitation practice for enterprise AI coding adoption

4 MODULE 4

Capstone: org adoption plan and pattern library

VNode-designed module covering capstone: org adoption plan and pattern library for enterprise AI coding adoption.

- VNode-designed module covering capstone: org adoption plan
- pattern library for enterprise AI coding adoption
