Microsoft Applied Skills credential

AUDIENCE PROFILE

Built for these roles

Built for Ip Admin, Security Operations Analyst learners validating applied skill in Compliance Manager.

OVERVIEW

Executive overview

To earn this Microsoft Applied Skills credential, learners demonstrate the ability to implement Microsoft Purview Information Protection and Microsoft Purview Data Loss Prevention. They validate their ability to discover, classify, and protect sensitive data in Microsoft 365, effectively implementing data security by using Microsoft Purview. Candidates for this credential should be familiar with Microsoft 365 services, Microsoft Purview, and PowerShell. They should understand data classification, sensitivity labels, and policy enforcement. The scenario in this experience represents real-world challenges faced by those in security roles, including information protection and compliance administrators, Microsoft 365 administrators, and security operations analysts.

PROGRAM OUTCOMES

Capabilities your teams will gain

- Strengthen capability in compliance scenarios
- Strengthen capability in ip admin scenarios
- Strengthen capability in security operations analyst scenarios
- Strengthen capability in compliance manager scenarios
