

MICROSOFT OFFICIAL CURRICULUM

Microsoft

Azure Fundamentals

AZ-900

As a candidate for this certification, you're a technology professional who wants to demonstrate foundational knowledge of cloud concepts in general and Microsoft Azure in particular.

Cloud

Beginner

Azure

DURATION

1 day

LEVEL

Beginner

FORMAT

Virtual, On-site, or Hybrid

CERTIFICATION

Microsoft Certified: Azure Fundamentals

AUDIENCE PROFILE

Built for these roles

This course is suitable for IT personnel who are just beginning to work with Azure. This audience wants to learn about our offerings and get hands-on experience with the product. This course primarily uses the Azure portal and command line interface to create resources and does not require scripting skills. Students in this course will gain confidence to take other role-based courses and certifications, such as Azure Administrator. This course combines lecture, demonstrations, and hands-on labs. This course will also help prepare someone for the AZ-900 exam.

OVERVIEW

Executive overview

This course will provide foundational level knowledge on cloud concepts; core Azure services; and Azure management and governance features and tools.

PROGRAM OUTCOMES

Capabilities your teams will gain

- Describe cloud concepts
- Describe Azure architecture and services
- Describe Azure management and governance

ENTERPRISE CUSTOMIZATION

Enterprise customization

Tailor this program to your organization's priorities: Builds current Microsoft credential readiness for Azure Fundamentals using the official Microsoft Learn skill outline.

Customization options

- Align labs to your Microsoft tenant and workload scenarios
- Add readiness checks and exam preparation reviews
- Extend delivery with role-specific implementation workshops

CURRICULUM

Curriculum roadmap

1

MODULE 1

Introduction to Cloud Infrastructure: Describe cloud concepts

Introductory learning path that is part of the Azure Infrastructure fundamentals content.

- Describe cloud computing
- Describe the benefits of using cloud services
- Describe cloud service types

2

MODULE 2

Introduction to Cloud Infrastructure: Describe Azure architecture and services

Architecture and services component of the Introduction to Cloud Infrastructure training

- Describe the core architectural components of Azure
- Describe Azure compute services
- Describe Azure networking services
- Describe Azure storage services
- Describe Azure identity, access, and security
