

## PROFESSIONAL COURSE OUTLINE

Microsoft

# Azure Fundamentals

AZ-900

This course will provide foundational level knowledge on cloud concepts; core Azure services; and Azure management and governance features and tools.

Cloud

Beginner

Azure

## PROGRAM CODE

AZ-900

## DELIVERY

Virtual, On-site, or Hybrid

## DURATION

1 day

## CERTIFICATION

Microsoft Certified: Azure Fundamentals

## AUDIENCE PROFILE

## Who This Program Is For

This course is suitable for IT personnel who are just beginning to work with Azure. This audience wants to learn about our offerings and get hands-on experience with the product. This course primarily uses the Azure portal and command line interface to create resources and does not require scripting skills. Students in this course will gain confidence to take other role-based courses and certifications, such as Azure Administrator. This course combines lecture, demonstrations, and hands-on labs. This course will also help prepare someone for the AZ-900 exam.

## PROGRAM SUMMARY

## What This Course Covers

As a candidate for this certification, you're a technology professional who wants to demonstrate foundational knowledge of cloud concepts in general and Microsoft Azure in particular.

## TAILORED DELIVERY

## Adapt the program around your team.

This outline can be adapted for virtual, on-site, or hybrid delivery, with emphasis adjusted for your team's platform priorities, role mix, and implementation goals.

### Enterprise-ready delivery format

VNode ITeS can align labs, examples, delivery pace, and assessment checkpoints to the required audience profile while preserving the official program sequence where applicable.

## COMPLETE MODULE SEQUENCE

## Module Flow and Topic Coverage

The structure below presents the current delivery flow for this program, including the associated topics covered under each module.

### Plan the next session

We can tune this outline around your delivery goals and team mix.
