

PROFESSIONAL COURSE OUTLINE

Microsoft

Build a natural language processing solution with Azure AI Language

Program aligned

Warning

This credential will retire on June 30, 2026. You will no longer be able to earn this credential after this date.

To earn this Microsoft Applied Skills credential, learners demonstrate the ability to create a natural language processing (NLP) solution by using Azure AI Language.

Candidates for this credential should have a solid understanding of creating and using various Azure NLP models through both Language Studio and in code, including custom models. They should also have experience programming in either Python or C#, be familiar with the Azure portal, and be comfortable provisioning Azure AI resources.

Microsoft Applied Skills credential

AUDIENCE PROFILE

Who This Program Is For

Built for Ai Engineer, Developer, Solution Architect learners validating applied skill in Language Service.

PROGRAM SUMMARY

What This Course Covers

Warning This credential will retire on June 30, 2026.

TAILORED DELIVERY

Adapt the program around your team.

This outline can be adapted for virtual, on-site, or hybrid delivery, with emphasis adjusted for your team's platform priorities, role mix, and implementation goals.

Enterprise-ready delivery format

VNode ITeS can align labs, examples, delivery pace, and assessment checkpoints to the required audience profile while preserving the official program sequence where applicable.

Plan the next session

We can tune this outline around your delivery goals and team mix.
