CERTIFICATION

Databricks Certified Data Analyst Associate

AUDIENCE PROFILE

Who This Program Is For

Built for analysts who need to manage governed data, execute queries, analyze performance, and create dashboards using Databricks SQL and AI/BI capabilities.

PROGRAM SUMMARY

What This Course Covers

Databricks analyst program aligned to data analyst associate skills across platform understanding, governed data access, SQL analytics, query performance, and dashboards.

TAILORED DELIVERY

Adapt the program around your team.

This outline can be adapted for virtual, on-site, or hybrid delivery, with emphasis adjusted for your team's platform priorities, role mix, and implementation goals.

Enterprise-ready delivery format

VNode ITeS can align labs, examples, delivery pace, and assessment checkpoints to the required audience profile while preserving the official program sequence where applicable.

COMPLETE MODULE SEQUENCE

Module Flow and Topic Coverage

The structure below presents the current delivery flow for this program, including the associated topics covered under each module.

1

MODULE 1

Work with Databricks platform and AI/BI experiences

Understand the core Databricks analytics environment, governed data access, and the AI/BI capabilities analysts use to explore, organize, and share business insights.

- AI/BI for Data Analysts

Plan the next session

We can tune this outline around your delivery goals and team mix.
