Databricks

Data Engineer Professional

Program aligned

Databricks Academy-aligned program for Data Engineer Professional.

Data

Advanced

Databricks Data Intelligence Platform

DURATION

2 days

LEVEL

Advanced

FORMAT

Virtual, On-site, or Hybrid

CERTIFICATION

**Databricks Certified
Professional pathway**

AUDIENCE PROFILE

Built for these roles

Built for Data Engineer learners adopting Data Engineer Professional.

OVERVIEW

Executive overview

For seasoned data engineers on Databricks, the Databricks Academy offers courses that teach advanced data engineering concepts to take you to the next level of your career. Advanced Data Engineering on Databricks will focus on building on existing data engineering knowledge to unlock the full potential of the lakehouse. We want to provide you with the expertise to build and design workloads that can ingest and analyze ever-growing data while minimizing refactoring and downtime. Participants will learn how to: Design databases and pipelines optimized for the Databricks Lakehouse Platform Implem

PROGRAM OUTCOMES

Capabilities your teams will gain

- Strengthen capability in data engineering scenarios
- Strengthen capability in databricks data intelligence platform scenarios

ENTERPRISE CUSTOMIZATION

Enterprise customization

Tailor this program to your organization's priorities: Develops Databricks lakehouse delivery capability for data engineering teams through official Academy-aligned training.

Customization options

- Align labs to your production environment and platform priorities
- Add readiness reviews and instructor-led practice sessions
- Extend into project-specific architecture or delivery coaching
