1

MODULE 1

## Deploy and configure Azure Monitor

In this learning path, you learn to deploy and configure Azure Monitor, including creating a Log Analytics workspace, and configuring monitoring for applications, virtual machines, and virtual networks. You also learn to create and configure alerts and responses. Finally, you practice these skills in a guided lab project.

- Create and configure a Log Analytics workspace
- Configure monitoring for applications
- Configure monitoring for virtual machines
- Configure monitoring for virtual networks
- Configure alerts and responses
- Guided Project – Deploy and configure Azure Monitor

PRIVATE DELIVERY

## Plan a private cohort for your team

Scope delivery format, role mix, and rollout timeline with our solutions team.
