Available on request

AUDIENCE PROFILE

Built for these roles

Built for K 12 Educator, Higher Ed Educator learners adopting Empower educators to explore the potential of artificial intelligence.

OVERVIEW

Executive overview

This course helps educators confidently navigate the world of AI in education. The content covers essential AI concepts, techniques, and tools, and highlights practical applications to enhance teaching and learning experiences. Through real-world examples, participants explore how AI can support personalized learning and provide valuable insights for data-driven decision making. Educators who complete this course are equipped with knowledge and skills to integrate Microsoft AI technology into their classes, foster innovation, and promote more equitable, inclusive learning environments. Search for a training provider Find a Global Training Partner to help you get started with this course.

PROGRAM OUTCOMES

Capabilities your teams will gain

- Strengthen capability in ai scenarios
- Strengthen capability in ms copilot scenarios
- Strengthen capability in role-based scenarios
