

PROFESSIONAL COURSE OUTLINE

Microsoft

Implement knowledge mining with Azure AI Search

Program aligned

Warning

This credential will retire on May 28, 2026. You will no longer be able to earn this credential after this date.

To earn this Microsoft Applied Skills credential, learners demonstrate the ability to create Azure AI Search solutions, implement custom skill sets, and add skill enrichment to an index to optimize search solutions.

Candidates for this credential should have experience with the Azure portal and with developing Azure Functions in C# or Python.

AUDIENCE PROFILE

Who This Program Is For

Built for AI Engineer learners validating applied skill in Azure Cognitive Search, Foundry Tools.

PROGRAM SUMMARY

What This Course Covers

To earn this Microsoft Applied Skills credential, learners demonstrate the ability to create Azure AI Search solutions, implement custom skill sets, and add skill enrichment to an index to optimize search solutions.

TAILORED DELIVERY

Adapt the program around your team.

This outline can be adapted for virtual, on-site, or hybrid delivery, with emphasis adjusted for your team's platform priorities, role mix, and implementation goals.

Enterprise-ready delivery format

VNode ITeS can align labs, examples, delivery pace, and assessment checkpoints to the required audience profile while preserving the official program sequence where applicable.

Plan the next session

We can tune this outline around your delivery goals and team mix.

COMPLETE MODULE SEQUENCE

Module Flow and Topic Coverage

The structure below presents the current delivery flow for this program, including the associated topics covered under each module.

1

MODULE 1

Implement knowledge mining with Azure AI Search

Implement knowledge mining with Azure AI Search

- Create an Azure AI Search solution
- Create a custom skill for Azure AI Search
- Create a knowledge store with Azure AI Search
- Implement advanced search features in Azure AI Search
- Search data outside the Azure platform in Azure AI Search using Azure Data Factory
- Maintain an Azure AI Search solution
- Perform search reranking with semantic ranking in Azure AI Search
- Perform vector search and retrieval in Azure AI Search

**Plan the next session**

We can tune this outline around your delivery goals and team mix.
