DELIVERY

Virtual, On-site, or Hybrid

DURATION

8 hours

CERTIFICATION

Available on request

AUDIENCE PROFILE

Who This Program Is For

Built for teams building AI-led fraud-detection systems.

PROGRAM SUMMARY

What This Course Covers

Official NVIDIA DLI workshop for anti-fraud application development using deep learning methods.

TAILORED DELIVERY

Adapt the program around your team.

This outline can be adapted for virtual, on-site, or hybrid delivery, with emphasis adjusted for your team's platform priorities, role mix, and implementation goals.

Enterprise-ready delivery format

VNode ITeS can align labs, examples, delivery pace, and assessment checkpoints to the required audience profile while preserving the official program sequence where applicable.

COMPLETE MODULE SEQUENCE

Module Flow and Topic Coverage

The structure below presents the current delivery flow for this program, including the associated topics covered under each module.

1

MODULE 1

Create anti-fraud AI solutions

Explore deep-learning approaches for transaction risk and fraud detection.

- Fraud signal modeling
- Deep-learning anti-fraud workflows

Plan the next session

We can tune this outline around your delivery goals and team mix.
