AUDIENCE PROFILE

Who This Program Is For

Built for teams moving RAG systems into serious production environments.

PROGRAM SUMMARY

What This Course Covers

Official NVIDIA self-paced course on production-scale deployment of RAG pipelines using NVIDIA NIM microservices.

TAILORED DELIVERY

Adapt the program around your team.

This outline can be adapted for virtual, on-site, or hybrid delivery, with emphasis adjusted for your team's platform priorities, role mix, and implementation goals.

Enterprise-ready delivery format

VNode ITeS can align labs, examples, delivery pace, and assessment checkpoints to the required audience profile while preserving the official program sequence where applicable.

COMPLETE MODULE SEQUENCE

Module Flow and Topic Coverage

The structure below presents the current delivery flow for this program, including the associated topics covered under each module.

1

MODULE 1

Deploy RAG pipelines at scale

Learn platform and deployment patterns for enterprise RAG systems.

- Production RAG architecture
- Deployment with NIM and Helm

Plan the next session

We can tune this outline around your delivery goals and team mix.
