DELIVERY

Virtual, On-site, or Hybrid

DURATION

8 hours

CERTIFICATION

Available on request

AUDIENCE PROFILE

Who This Program Is For

Built for teams that need stronger core deep-learning capability before moving into advanced programs.

PROGRAM SUMMARY

What This Course Covers

Official NVIDIA DLI workshop covering the fundamentals of deep learning for applied AI model development.

TAILORED DELIVERY

Adapt the program around your team.

This outline can be adapted for virtual, on-site, or hybrid delivery, with emphasis adjusted for your team's platform priorities, role mix, and implementation goals.

Enterprise-ready delivery format

VNode ITeS can align labs, examples, delivery pace, and assessment checkpoints to the required audience profile while preserving the official program sequence where applicable.

COMPLETE MODULE SEQUENCE

Module Flow and Topic Coverage

The structure below presents the current delivery flow for this program, including the associated topics covered under each module.

1

MODULE 1

Learn core deep-learning practice

Build the conceptual and delivery foundation required for modern deep-learning workflows.

- Deep-learning foundations
- applied model-building patterns

Plan the next session

We can tune this outline around your delivery goals and team mix.
