DELIVERY

Virtual, On-site, or Hybrid

DURATION

3 hours

CERTIFICATION

Available on request

AUDIENCE PROFILE

Who This Program Is For

Built for developers and teams beginning their embedded AI journey with NVIDIA Jetson.

PROGRAM SUMMARY

What This Course Covers

Official NVIDIA DLI course for building an AI classification project with computer vision models on Jetson Nano.

TAILORED DELIVERY

Adapt the program around your team.

This outline can be adapted for virtual, on-site, or hybrid delivery, with emphasis adjusted for your team's platform priorities, role mix, and implementation goals.

Enterprise-ready delivery format

VNode ITeS can align labs, examples, delivery pace, and assessment checkpoints to the required audience profile while preserving the official program sequence where applicable.

COMPLETE MODULE SEQUENCE

Module Flow and Topic Coverage

The structure below presents the current delivery flow for this program, including the associated topics covered under each module.

1

MODULE 1

Start building AI on Jetson

Learn the implementation basics of using Jetson Nano for deep learning and computer vision projects.

- Jetson AI basics
- Classification workflow on edge hardware

Plan the next session

We can tune this outline around your delivery goals and team mix.
