

MICROSOFT OFFICIAL CURRICULUM

Microsoft

Identity and Access Administrator Associate

SC-300

As a Microsoft identity and access administrator, you design, implement, and operate an organization's identity and access management by using Microsoft Entra.

Security

Intermediate

Azure

DURATION
4 days

LEVEL
Intermediate

FORMAT
Virtual, On-site, or Hybrid

CERTIFICATION
Microsoft Certified: Identity and Access Administrator Associate

AUDIENCE PROFILE

Built for these roles

This course is for the Identity and Access Administrators who are planning to take the associated certification exam, or who are performing identity and access administration tasks in their day-to-day job. This course would also be helpful to an administrator or engineer that wants to specialize in providing identity solutions and access management systems for Azure-based solutions; playing an integral role in protecting an organization.

OVERVIEW

Executive overview

The Microsoft Identity and Access Administrator course explores how to design, implement, and operate an organization's identity and access management systems by using Microsoft Entra ID. Learn to manage tasks such as providing secure authentication and authorization access to enterprise applications. You will also learn to provide seamless experiences and self-service management capabilities for all users. Finally, learn to create adaptive access and governance of your identity and access management solutions ensuring you can troubleshoot, monitor, and report on your environment. The Identity and Access Administrator may be a single individual or a member of a larger team. Learn how this role collaborates with many other roles in the organization to drive strategic identity projects. The end goal is to provide you knowledge to modernize identity solutions, to implement hybrid identity solutions, and to implement identity governance.

PROGRAM OUTCOMES

Capabilities your teams will gain

- Implement and manage user identities
- Implement authentication and access management
- Plan and implement workload identities
- Plan and implement identity governance

ENTERPRISE CUSTOMIZATION

Enterprise customization

Tailor this program to your organization's priorities: Builds current Microsoft credential readiness for Identity and Access Administrator Associate using the official Microsoft Learn skill outline.

Customization options

- Align labs to your Microsoft tenant and workload scenarios
- Add readiness checks and exam preparation reviews
- Extend delivery with role-specific implementation workshops

CURRICULUM

Curriculum roadmap

1

MODULE 1

Implement an identity management solution using Microsoft Entra ID

Implement an identity management solution using Microsoft Entra ID

- Implement initial configuration of Microsoft Entra ID
- Create, configure, and manage identities
- Implement and manage external identities
- Implement and manage hybrid identity

2

MODULE 2

Implement an authentication and access management solution

Implement an authentication and access management solution

- Secure Microsoft Entra users with multifactor authentication
- Manage user authentication
- Plan, implement, and administer Conditional Access
- Manage Microsoft Entra Identity Protection
- Implement access management for Azure resources
- Deploy and Configure Microsoft Entra Global Secure Access

3

MODULE 3

Implement access management for apps

Implement access management for apps

- Plan and design the integration of enterprise apps for SSO
- Implement and monitor the integration of enterprise apps for SSO
- Implement app registration
- Register apps using Microsoft Entra ID
