

MICROSOFT OFFICIAL CURRICULUM

Microsoft

Microsoft Identity and Access Administrator

SC-300T00

Official Microsoft Learn course aligned to identity and access administration responsibilities across Microsoft Entra ID, governance, authentication, and privileged access.

Security

Intermediate

Microsoft Entra

DURATION

4 days

LEVEL

Intermediate

FORMAT

Virtual, On-site, or Hybrid

CERTIFICATION

Microsoft Certified: Identity and Access Administrator Associate

AUDIENCE PROFILE

Built for these roles

This course is for the Identity and Access Administrators who are planning to take the associated certification exam, or who are performing identity and access administration tasks in their day-to-day job. This course would also be helpful to an administrator or engineer that wants to specialize in providing identity solutions and access management systems for Azure-based solutions; playing an integral role in protecting an organization.

OVERVIEW

Executive overview

The Microsoft Identity and Access Administrator course explores how to design, implement, and operate an organization's identity and access management systems by using Microsoft Entra ID. Learn to manage tasks such as providing secure authentication and authorization access to enterprise applications. You will also learn to provide seamless experiences and self-service management capabilities for all users. Finally, learn to create adaptive access and governance of your identity and access management solutions ensuring you can troubleshoot, monitor, and report on your environment. The Identity and Access Administrator may be a single individual or a member of a larger team. Learn how this role collaborates with many other roles in the organization to drive strategic identity projects. The end goal is to provide you knowledge to modernize identity solutions, to implement hybrid identity solutions, and to implement identity governance.

PROGRAM OUTCOMES

Capabilities your teams will gain

- Implement authentication and authorization solutions in Microsoft Entra
- Manage identity governance and privileged access scenarios
- Protect identities and improve access control posture
- Operate modern identity administration workflows for enterprise environments

ENTERPRISE CUSTOMIZATION

Enterprise customization

Tailor this program to your organization's priorities: Builds stronger identity and access operations by helping teams implement authentication, authorization, governance, and protection controls with Microsoft Entra.

Customization options

- Map the workshop to your identity governance rollout
- Add hybrid identity and Microsoft 365 integration depth
- Extend into privileged access and Zero Trust identity scenarios

CURRICULUM

Curriculum roadmap

1

MODULE 1

Implement an identity management solution using Microsoft Entra ID

Implement an identity management solution using Microsoft Entra ID

- Implement initial configuration of Microsoft Entra ID
- Create, configure, and manage identities
- Implement and manage external identities
- Implement and manage hybrid identity

2

MODULE 2

Implement an authentication and access management solution

Implement an authentication and access management solution

- Secure Microsoft Entra users with multifactor authentication
- Manage user authentication
- Plan, implement, and administer Conditional Access
- Manage Microsoft Entra Identity Protection
- Implement access management for Azure resources
- Deploy and Configure Microsoft Entra Global Secure Access

3

MODULE 3

Implement access management for apps

Implement access management for apps

- Plan and design the integration of enterprise apps for SSO
- Implement and monitor the integration of enterprise apps for SSO
- Implement app registration
- Register apps using Microsoft Entra ID
